THE POWER OF MOVEMENT IN PLANTS

Cambridge University Press. Paperback. Book Condition: New. Paperback. 608 pages. Dimensions: 8.4in. x 5.7in. x 1.6in. Written in collaboration with his son Francis, a notable botanist, this 1880 book builds on Darwins earlier investigations into climbing plants, orchids, insectivorous plants, flower variety, and the processes of fertilisation. This detailed study of many species from seed to mature plant further develops Darwins work on adaptation and evolution, with the aim of collating the results of individual studies into common factors applicable to...
