Reviews

This ebook may be worth a go through, and superior to other. I could comprehend every thing out of this published e pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

SIMON SCHUSTER, United States, 2011. Paperback. Book Condition: New. 211 x 137 mm. Language: English . Brand New Book. From national bestselling author Carol Cassella comes the story of one doctor s struggle to hold her family together through a storm of broken trust and questioned ethics. Claire is at the start of her medical career when she falls in love with Addison Boehning, a biochemist with blazing genius and big dreams. A complicated pregnancy deflects Claire s professional path, and she is forced to drop out of her residency. Soon thereafter Addison invents a simple blood test for ovarian cancer, and his biotech start-up lands a fortune. Overnight the Boehnings are catapulted into a financial and social tier they had never anticipated or sought: they move into a gracious Seattle home and buy an old ranch in the high desert mountains of eastern Washington, and Claire drifts away from medicine to become a full-time wife and mother. Then Addison gambles everything on a cutting-edge cancer drug, and when the studies go awry, their comfortable life is swept away. Claire and her daughter, Jory, move to a dilapidated ranch house in rural Hallum, where Claire has to find a job until Addison can salvage his discredited lab. Her only offer for employment comes from a struggling public health clinic, but Claire gets more than a second chance at medicine when she meets Miguela, a bright Nicaraguan immigrant and orphan of the contra war who has come to the United States on a secret quest to find the family she has lost. As their friendship develops, a new mystery unfolds that threatens to destroy Claire s family and forces her to question what it truly means to heal. Healer exposes the vulnerabilities of the American family, provoking questions of choice versus...
