TAMING YOUR TELEVISION: AND OTHER DARING FEATS FOR YOUR LIVING ROOM

Que Corporation,U.S. Paperback. Book Condition: New. This item is printed on demand. Paperback. 312 pages. Take control of your digital living room! Make your TiVO, UltimateTV, Xbox or GameCube do your bidding. We show you how to use these PCs in sheeps clothing to be king of your domain (or at least the area immediately surrounding your recliner). Like the plot from a circa 1950s sci-fi film, computerized look-alikes have surreptitiously replaced our VCRs, our video game consoles. . . even our televisions and stereos. While the advantages that these digital entertainment devices (DEDs) offer over their analog predecessors are immense - so is the potential for sensory and information overload. Unlike the benign appliances we grew up with, these new digital wonders demand much more from us than the simple ability to turn them on and off. Its time to take control, put them through their paces, show them whos boss. The revolution in your living roomThe same forces that revolutionized the workplace during the past 25 years are now at work in our homes. The PCs in our dens were only the forerunners of this computer revolution. The real fireworks are taking place in the living room, where computers hidden inside our everyday appliances are poised to transform the way we live. Bottom line: Your days as a couch potato are numbered. TiVO and UltimateTV - changing the way you watch TV - forever! TiVO and UltimateTV are shaping up to be the white-hot category in home electronics for 2002. The merger of computers and traditional VCRs goes far beyond the superficial benefits of pausing and applying slow-motion and stop-action effects to live television. Learn the full range of these versatile machines. Choosing the right game console - You might not know it, we are amid a hardware...
