By Ewart S Andrews

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Strength of Materials: A Text-Book for Engineers and Architects The advance in the application of scientific methods to architectural and engineering problems has made increasing demands upon the theoretical knowledge required by architects and engineers; it is the aim of the present book to present in as simple a method as is consistent with accuracy, the principles which underlie the design of machines and structures from the standpoint of their strength. The subjects commonly called respectively the Strength of Materials and the Theory of Structures have much in common; much of the subject matter contained in the authors books upon the latter subject has, therefore, been Incorporated, the same general method involving the use and application of graphical methods in preference to purely mathematical methods having been adopted in the other branches of the subject. An attempt has been made to present more clearly than is general the various theories as to the cause of failure in materials and the effect of these theories upon design. Although the author hopes that the book will...
