

## Coated Grains

Filesize: 2.25 MB

### ***Reviews***

*This is actually the very best publication i have read through till now. It is definitely simplistic but unexpected situations in the 50 % in the pdf. You can expect to like just how the article writer compose this pdf.*

*(Ms. Elinore Wintheiser)*

## COATED GRAINS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Coated grains have always attracted attention, at first of naturalists, and later of geologists, and the interest in these peculiar bodies was related both to their intriguing form and their significance in facies interpretation and sedimentology and to their relevance to accumulations of hydrocarbons and other mineral deposits. This resulted in numerous publications on this subject, and the intention of this volume is to summarize the present state of knowledge on coated grains. The idea of the book was to unite some general papers with papers reporting case studies of both recent and ancient coated grains. The organization of the book follows this intention. The papers presented in this volume have been invited by the editor; the theme of the book merits a few words of personal history. The development of studies of coated grains during the last two decades has not only resulted in a great increase in knowledge of recent and ancient environments of coated grain formation, but also numerous important and controversial questions of classification, environmental significance, mineralogical composition etc. of ancient coated grains have arisen. To answer these questions, in 1978 I started the study of many ancient and recent occurrences of coated grains at the Institut für Geologie, Ruhr-Universität Bochum, following the invitation of Hans Fichtbauer and sponsored by the Alexander von Humboldt-Stiftung. | I Approaches.- I.1 Classification of Coated Grains.- I.2 Classification of Coated Grains: Discussion.- I.3 Origin of Coated Grains: Trace Element Constraints.- I.4 Carbon and Oxygen Isotope Composition of Recent and Ancient Coated Grains.- I.5 Neritic Macroid Genesis, an Ecological Approach.- I.6 Accretionary Lapilli in Volcanic Ash Falls: Physical Factors Governing Their Formation.- II Ooids.- II.1 Calcareous Ooids: A Synopsis.- II.2 Ferriferous Ooids.- II.3 Cortical Fabrics in Calcite and Aragonite Ooids.- II.4...
