Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Elsevier Health Sciences. Paperback. Book Condition: new. BRAND NEW, Community Public Health in Policy and Practice: A Sourcebook (2nd Revised edition), Sarah Cowley, Since the first edition of this book was published, there has been considerable change across public health, health visiting and community nursing. The positive emphasis on developing and describing all services in relation to their purpose and client/user group is reflected in this second, emphasizing multi-disciplinarity and service focus rather than individual professions, whilst retaining the essential emphasis on policy and practice. Familiar occupational titles, such as health visitor, community development worker, midwife or nurse are still used within the chapters, recognizing the continued division of labour and major contributions to public health made by specific grass roots occupations. This second edition has been completely reorganised, expanded and updated to keep up with the rapid progress across the field of community public health.
